## About QBIC

The Queensland Brain Injury Collaborative (QBIC) is a powerful alliance of researchers, clinicians, and health professionals, dedicated to advancing the quality of care for individuals with traumatic brain injuries. From initial diagnosis through to recovery, this partnership strives to ensure that patients across Queensland receive the best possible care and support. Our goal is research that improves the provision of care across the trajectory of acquired brain injury, from diagnosis through acute care, treatment, rehabilitation and community integration. **More information:** [qbi.uq.edu.au/about-qbic](http://qbi.uq.edu.au/about-qbic)
